## Product information:

A tufted cut pile high performance barrier carpet incorporating a light scraper fibre for optimum dirt removal and excellent moisture retention properties in most contract environments.

Barrier carpet provides an effective solution to reducing maintenance costs on surrounding floorcoverings and helps minimise the risk of slip on hard floor finishes. It can also, when maintained correctly, help protect the appearance of surrounding floorcoverings throughout their life.

Often used in conjunction with a primary entrance mat and in some situations can be used as stand-alone matting in entrance and access points. It is also ideal for use in any area of a building prone to soil and moisture damage such as staircases, lifts, canteen areas or in areas of heavy wear such as reception areas or corridors.

Designed to complement Esplanade Plus and Access primary barrier matting.
