

mosaic⁺tec™ SJM

Squarejolly range specifically developed for mosaic. Multipurpose profile used either to create external corners, to finish edges or as a decorative listello. Ideal for most types of installation, the profile provides neat edge finishing with equal visible sides.

The profile is available with a universal cube-shaped end cap to be used as internal, external and three-way junction.

Illustrated scale dimension 1:1

MOSAICTEC SJM 44 A* Anodised Aluminium

An silver coated aluminium (AS) profile which offers adequate protection and tolerance to wear over time.

The surface of this anodised aluminium (ASB) profile has been chrome-effect treated in order to give that sparkling effect in combination with bathroom ware. The shiny gold finish effect (AOB) is also requested for particular combination in interior decorating design. Also this profile holds the same properties as the other aluminium models.

MOSAICTEC SJC 44 A* End cap Aluminium

Capsules to make external, internal, three-way junction and end-cap. The profile symmetric section has been conceived to match all these functions with one piece.
