

STAIRTEC SI is a product engineered to withstand both mechanical impact as well as chemical corrosion and ensures a safety step at the same time, thanks to the carborundum anti-slip strip on its surface, which is to apply after the laying and to be ordered separately. This profile is ideally applied on a pre-laid covering of industrial and/or commercial areas. It is suitable for restructuring jobs for compliance with safety norms. This profile can be either glued or bolted with screws.

Illustrated scale dimension 1:1

stairtec™ SI

The product SWH is certified R13 (Anti-slip insert).
Anti-slip properties. According to standard DIN 51130 (06/2004).
